## Introduzione

Web Intelligence è una suite di soluzioni SaaS (Software as a Service) proprietarie per la gestione di approfondite investigazioni su Internet e in particolare per l'individuazione e rimozione tempestiva di violazioni della proprietà intellettuale e industriale su clear e deep web.

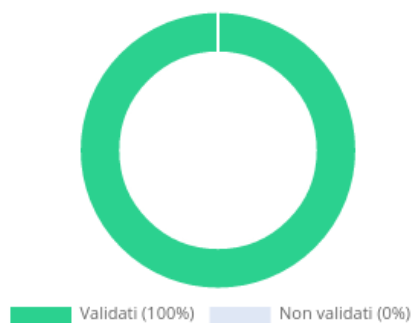

Presentiamo di seguito i risultati della ricerca automatica di "Matrix" eseguita in data **28/3/2022**. L'ultimo aggiornamento della ricerca è avvenuto in data **29/3/2022**. La ricerca ha portato all'individuazione di **4769** risultati.

L'importanza è un indicatore proprietario, basato sul rank Alexa Global, che permette di comprendere a colpo d'occhio la rilevanza di un determinato dominio. Tale indicatore nasce per focalizzare le attività investigative sui domini che possono comportare un maggior danno piuttosto che su quelli con il maggior numero di risultati.
